of households fall
into this segment

In the United States
1.1%
of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Prairie Living is the most rural market, comprising about 1 percent of households, located mainly in the Midwest, with a predominance of self-employed farmers. These agricultural communities are not diverse. They are dominated by married-couple families that own single-family dwellings and many vehicles. Median household income is similar to the U.S., and labor force participation is slightly higher. Faith is important to this hardworking market. When they find time to relax, they favor outdoor activities.

Our Neighborhood

- About four-fifths of households are owner occupied.
- Dominant household type is married-couples with no children.
- Most are single-family homes (87%) built before 1980; a higher proportion were built before 1940.
- Higher percentage of vacant housing units is at 16%.
- Most households own 2 or 3 vehicles; this is the highest-ranked market for owning 4 or more vehicles.

Socioeconomic Traits

- Half have completed some college education or hold a degree.
- At 4.1%, the unemployment rate is less than half the U.S. rate.
- Labor force participation rate slightly higher at 66%.
- Wage and salary income for 73% of households plus self-employment income for 27%.
- Faith and religion are important to these residents.
- Tend to buy things when they need them, rather than when they want them or to be trendy.
- Somewhat resistant to new technology.
- Creatures of habit when purchasing food items.

Market Profile

- Many own a truck, riding lawn mower, and ATV/UTV and have a satellite dish.
- They purchased plants and seeds in the past year for their vegetable garden, where their tiller comes in handy.
- They favor banking in person, have non-interest checking accounts, invest in CDs (more than 6 months), and have term/whole life insurance.
- They are pet owners.
- Leisure activities include fishing, hunting, boating, camping, and attending country music concerts.
- Residents prefer to listen to faith and inspirational, as well as country music on the radio.
- They read home service, fishing/hunting and automotive magazines.
- They contribute to religious organizations and belong to religious clubs.
- Walmart is a favorite shopping stop; Subway is a favorite eating spot.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. Data provider Esri classifies U.S. residential neighborhoods into 67 unique market segments based on socioeconomic and demographic characteristics. Data Source: Esri 2019. Update Frequency: Annually.

About RPR (Realtors Property Resource)

- Realtors Property Resource® is a wholly owned subsidiary of the National Association REALTORS®.
- RPR offers comprehensive data – including a nationwide database of 164 million properties – as well as powerful analytics and dynamic reports exclusively for members of the NAR.
- RPR's focus is giving residential and commercial real estate practitioners, brokers, and MLS and Association staff the tools they need to serve their clients.
- This report has been provided to you by a member of the NAR.

About RPR's Data

RPR generates and compiles real estate and other data from a vast array of sources. The data contained in your report includes some or all of the following:

- **Listing data** from our partner MLSs and CIEs, and related calculations, like estimated value for a property or median sales price for a local market.
- **Public records data** including tax, assessment, and deed information. Foreclosure and distressed data from public records.
- **Market conditions and forecasts** based on listing and public records data.
- **Census and employment data** from the U.S. Census and the U.S. Bureau of Labor Statistics.
- **Demographics and trends data** from Esri. The data in commercial and economic reports includes Tapestry Segmentation, which classifies U.S. residential neighborhoods into unique market segments based on socioeconomic and demographic characteristics.
- **Business data** including consumer expenditures, commercial market potential, retail marketplace, SIC and NAICS business information, and banking potential data from Esri.
- **School data and reviews** from Niche.
- **Specialty data sets** such as walkability scores, traffic counts and flood zones.

Update Frequency

- Listings and public records data are updated on a continuous basis.
- Charts and statistics calculated from listing and public records data are refreshed monthly.
- Other data sets range from daily to annual updates.
